

▶ Endpoint Data Protection as-a-Service

DATA PROTECTION, SECURITY AND VISIBILITY WITH SELF-SERVICE PRODUCTIVITY

▶ NO COST, NO RISK OFFER – FIRST 60 DAYS FREE* – COMMVAULT® ENDPOINT DATA PROTECTION WITH SEARCH

Commvault® endpoint data protection with search is a complete end-user data management solution. It provides data security, protection, visibility, and productivity advantages for all your endpoint data and users. Commvault helps organizations regain control of, and effectively manage company data – even outside the data center. From a single solution, you can mitigate the risks to end-user data against breaches from malware, recover data from lost or stolen devices, and get visibility into data end users have on their laptops. Commvault Endpoint-as-a-Service allows organizations to manage and search endpoint and cloud file share data for compliance and litigation purposes.

MITIGATE THE RISK OF DATA LOSS FROM:

- No backup of endpoint data
- Malware, lost or stolen laptops, employee turnover, human error and limited data loss capabilities
- Limited compliance and litigation support and processes
- Lack of visibility to all endpoint data
- No single storage pool or integrated advance search capabilities
- Poor monitoring and control over how company data gets shared internally and externally

▶ LIMITED-TIME OFFER:*

- 1 Minimum 250 users
- 2 You must execute a contract for 38 months. The first 60 days of the contract are a free trial period, you have the option to cancel the contract, with no penalty or cost, during the trial period
- 3 Pricing starts at \$7 per user, per month (first 60 days of use is FREE)
- 4 Includes search
- 5 Includes setup and 24/7 support
- 6 Flexible billing options including quarterly and annual payments (after the 60 day trial period expires)
